DD/S&T Meeting with Midcareer
Group

1. Dr. Wheelon is scheduled to talk with the Midcareer Group this Friday at 1000. Questions have been prepared in advance for all Deputy Directors who will be addressing the Group on that day. Dr. Wheelon has been asked the following questions which concern OSI:

(a) There seems to be considerable duplication in the efforts of CIA and DIA in several aspects of production of finished intelligence (as well as in collection activities). What, if anything, is being done or can be done to eliminate such duplication?

(b) What are the advantages to the DD/S&T of having finished intelligence production components (OSI, FMSAC) within the Directorate?

2. May we have your reply by 1200 Thursday. I am scheduled to discuss these questions and answers with Dr. Wheelon in the early afternoon.
